Master course
in Computer Science and Information Technology

Software Architectures

-

Task 2

Group 5

Bastianello Lorenzo, 874268

Bonomi Silvia, 867138

Bruno Francesco, 875812

Quaglia Beatrice Maria, 875332

Academic Year

2022 / 2023

Introduction

Requirements

Please submit a pdf file where you define what architecture characteristics amongs the ones we identified (see slide 16 of Introduction to Software Architect[ure]) are of interest to your IT system, relating each architecture characteristics to the points of the kata that led you to identify that characteristic. For each architecture characteristic you picked up, please "quantify" exactly at what level you need it for your IT system.

Description

TODO: Scrivere le caratteristiche identificate nel katas e magari collegarle ad eventuali requirements

Architecture

Architecture Type

TODO: Parlare dell'architettura a livelli

Architecture Characteristics

Characteristic	Level desired	Importance	Small description
